

AMENDMENTS TO THE CLAIMS

The listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (currently amended): A method of protecting a sensor attached to a graft intended to be delivered within vasculature using a catheter, comprising:

attaching a sensor to ~~[[the]]~~ a graft;

attaching a marker to ~~[[a]]~~ the graft;

folding portions of the graft to cover the sensor and the marker; and

placing the graft within a catheter.

2. (previously presented): The method of claim 1, further comprising configuring the graft to define an H-shape.

3. (canceled)

4. (previously presented): The method of claim 1, further comprising folding more than two layers of graft material over the sensor.

5. (canceled)

6. (canceled)

7. (previously presented): The method of claim 1, further comprising placing a double-folded section of graft material over the sensor.

8. (currently amended): The method of claim 1, further comprising placing a single folded section of graft material over the sensor.

Claims 9-27 (cancel)

28. (previously presented): The method of claim 1, further comprising configuring a membrane of the sensor so that the membrane is substantially perpendicular to a radius of an unfolded graft.

29. (previously presented): The method of claim 1, wherein different portions of the graft are used to cover the sensor and the marker.

30. (previously presented): The method of claim 1, wherein a plurality of markers are attached to the graft.

31. (previously presented): The method of claim 30, wherein the plurality of markers are positioned laterally spaced from the sensor.

32. (previously presented): The method of claim 31, wherein each of the plurality of markers are covered by portions of the graft.

33. (previously presented): The method of claim 1, wherein four layers of the graft are folded over the sensor.
